

News Release: BBE is now a Nutrition North Canada Registered Supplier October 17, 2016

Company registered to meet growing demand from its Northern customer base

EDMONTON: BBE's iShop4U division has been operating for three years and has grown each year. Annual customer sealift orders have been a big part of this success but the team realized that there was more that could be done to support their customers. The summer sealift of grocery orders did not address customer's needs for economically delivered groceries, particularly perishables, during the non-sealift season, which is the majority of the year. Requests for air delivered groceries drove the decision to become a Registered Southern Supplier within the Nutrition North Canada program. BBE is proud to a part of the Nutrition North Canada Program and looks forward to helping our customers buy food at lower prices.

Lloyd Hillier, Procurement and Sales Manager at BBE, "After many years of travel in Canada's Arctic and hearing the many issues of high pricing in the North we are happy to bring you affordable pricing to your community, through this program."
